

Welcome

Welcome to the virtual home of my holistic health care practice, *Lena Swanson, Animal Communication and Holistic Healing*. I serve both people and animals in a variety of ways as a ☒ professional animal communicator, shamanic practitioner, past life regression facilitator, Reiki Master, and a flower essence and essential oil consultant.

I have also added psychic readings for people to my toolbox after numerous requests and the urging of a highly skilled nationally known psychic!

My purpose is to work with entire families to provide services that best meet the physical, mental, emotional, and spiritual needs of each family member, both human and animal. I invite you to explore my site and discover some new options in health care for both yourself and your animals.

Feel free to contact me by phone or email with any questions you may have. My goal is to serve both animals and people and allow this beautiful relationship to deepen and flourish.

All the best to you,

Lena
